

SVL®

SVL® Center Bearing: Protect Your Vehicle—and Your Bottom Line.

Don't sacrifice quality for savings—get both with SVL center bearings. They're designed and engineered to provide the proper fit, alignment, and support for your specific application needs.

High-quality steel provides reliable strength to the center support frame, while our rubber materials absorb and isolate the vibrations that can damage the driveline. SVL center bearings are pre-lubed and sealed for life, preventing contaminants from entering, and a corrosion-resistant coating adds extra protection.

SVL center bearings are manufactured in certified factories to ensure consistent product quality. That means you'll get the alignment and support you need—and the assurance that you're getting great product performance for your money.

SVL Products: Value Driven

- Maximum Value
- Aftermarket Engineered
- Guaranteed Performance*
- Backed by Dana, a Trusted Supplier

SVL Center Bearings: extraordinary value to keep you moving forward.

*SVL® brand products are the smart choice for older (post-warranty) vehicles, and those used seasonally or in lower mileage and light-duty situations. When genuine original equipment performance specifications are either not required or exceed your budget constraints, SVL products keep your vehicle rolling while protecting your bottom line. Each SVL center bearing is backed by a six-month or 50,000-mile warranty, so you can drive with confidence.

Alignment for Your Vehicle—Aligned to Your Budget.

Trust SVL® to fit your vehicle and your budget. The SVL center bearing is part of the full line of SVL parts, engineered to meet the unique needs of the aftermarket while ensuring performance through quality and durability testing. It's a level of reliability you'd expect from a brand that's backed by Dana, the most trusted name in driveline components.

Refer to the chart below to identify the appropriate SVL center bearing for your vehicle and talk to your Dana representative today.
